THURSDAY APRIL 23, 1857.

But the Democratic organ says that "at Philadelphis when the American party nominated Fillmore, the said, 7th, the recognition of the right of the native born and naturalized citizens of the United States, promently residing in any Territory thereof, to frame the Constitution and laws, and to regulate their domestic an social affairs in their own mode subject only to the provisions of the Federal Constitution." Of course they diadopt such a resolution. The American party has a ways maintained that the citizens of the United State permacently residing in the Territories should determine all questions of local government for themselves web.

the right of admission into the Union when as they always have done? they have the requisite population." All the version of the creed:

Resolved. That we are opposed to the Interference the General Government in the statement of the que then of shavey in the territories, and we believe the the clitzens of the United States, bons fide residents the territories, have the right to determine the question of shavery when they come to the adoption of a State Constitution.

This was passed by the State Council the other day. Here the right of the people of a would be in bad taste. Territory to determine the question of slavery when they come to frame a State Constitution, is asserted; but what is to be done beforehand? Suppose a Territorial Legislature should pass a law prohibiting slavery, and require its provisions to be earried out; what then is to be done The first part of the resolution gives the anewer: "We are opposed to the interference of the General Government in the settlement of the slavery question in the Territories." Neither Congress, nor the President, nor the Courts of the United States must interfere; the brethren are opposed to it. Here, then, the Know-Nothings recognize the right of the people of a Territory to make their own Constitutions and laws, and regulate their own domestic and social affairs; and the General Government must not interfere with anything for the settlement of the slavery question. This certainly is squatter sovereignty fully indorsed. Nowhere has the Know-Nothing party ventured to deny the right of the Territorial Legislature to act upon the subject of slavery. And, by this last version of the creed, they remove all restraints from such action; for there is no power but that of the General Government to Interfere with anything the Territorial Legislature may do, on the slav-

This right of the Territorial Legislature to act on the question of slavery, or any other subject in fact, is what is called squatter sovereignty these times. The phrase once had a different signification. The people of California called a Convention and formed a State Constitution, without authority of Congress at all, and without any Territorial organization. This was denounced as squatter sovereignty. There is no such ease now in question. Our Territories are all organized by Congress, and have all the powers of legislation that Congress can give. The Territories are acting under the organic acts of Congress; and consequently the phrase squatter sovereignty is mis-applied when used following account of the Black Republican difin reference to the action of our Territories ficulties in Penneylvania; now. There is but one question upon which the power of a Territorial Legislature to act excites any interest or apprehension, and that is question on hand. The Know-Nothings, as we have shown, take the affirmative : and then rail daily at squatter sovereignty. If the people of Council they made a majority and minority reand the General Government is not to interfere with the settlement of the slavery question, of course the people of the Territories have practically all power over the subject.

The outery over the phrase squatter sovereignty is a piece of demagogue eraft. Years ago, when California was admitted into the Union. disunionists by the men who are now Know-Nothings, denounced this action of a people in address to the people of Pennsylvania, setting getting up organizations in the Territories of forth their reasons for not indorsing the Harrisand assuming to make a State Constitution upon | er whatever upon the subject; that the only what they claimed as an inherent right. These fire eaters were indignant because these squatter a State Convention for that exclusive purpose. sovereigns in California had excluded slavery. They held that there was no power in Congress, Wilmot had not yet defined his course on Amermuch less in squatter sovereigns, to exclude clavery from any Territory of the United States. Now the Know-Nothings have only to pretend that the Kansas bill contains squatter sovereign-Democrats, and rail at it themselves, to make it appear that they are the very fire-eaters

We have shown from these platforms and resolutions that Wilmot has challenged Packer to take the the natural voice of the animal is a bray, not a stump with him; and whether he accepts the challenge or not, he (Wilmot) will take the stump some time in May, and visit every portion of the Jourtion of the State. Both of these men are powed gown, the affianced lover disappeared benal has denounced a bug-bear that he calls squatter sovereignty, and his party orators have denounced it; but look at the carefully studied interesting one. The chairmen of both committees are strong men, viz: Charles R Buck, vally ransacked the house formula of their platforms and their resolutions, alew, Democratic, and Lemuel Todd, opposiand learn what they mean. They exercised it when colonies, and never gave it up; and no State is insane enough o surrender it, however much some of the States may abuse it.

The editor misapprehends the case of Rhode Island and Maine. It is the constitutions of these States, not the decision of the Court, that

The Constitution of Rhode Island, and the Constitution of Maine require that a voter shall The editor of the organ tries to avoid be a citizen of the United States. Very true, they have denounced the words, and used them as a scare-crow to frighten simpletons; but they have, nevertheless, resolved in favor of the thing itself. We have quoted the Know-Nothing platform of February, 1856, which the Journal notices thus:

allow the negro to vote, in the face of their own constitutions. They can remove the difference of their own Constitutions. They can remove the difference of their own Constitutions. They can remove the difference of their own Constitutions. This the Black Republicans would do, if they had an opportunity; but they are afraid of the experiment just now on so delicate a subject. It is rather an ugly question to submit to white men. Our State Constitutions have quoted the Know-Nothing platform of the United States, with only five or six exposed in favor of the United States, with only five or six exposed in favor of the United States, with only five or six expectations and there are some things in which they might just as well obtained the quirmer into the dark water, with agreeable resources of the dark water, with agreeable resources in the United States as models of conduct, and there are some things in which they might just as well look to us [a laugh]; but if we beg of the advocates of the peace to address themselves with well obtained and ittel further; got behind a stump; tried and look to us [a laugh]; but if we beg of the advocates of the peace to address themselves with well obtained and there are some things in which they might just as well look to us [a laugh]; but if we beg of the advocates of the peace to address themselves with well obtained and tied himself into all manner of keeps right. MUSIC OF SHOP AND FARM LABOR.

The banging of the hammer,
The whirling of the plane,
The crashing of the plane,
The crashing of the busy saw,
The crashing of the crane,
The ringing of the sawil,
The grating of the anvil,
The grating of the turning lathe,
The whirling of the spindle,
The whirling of the spindle,
The ratting of the loom,
The putting of the engine,
The tark continuous boom,
The chipping of the tailor's shears,
The diving of the awl—
These sounds of honest Industry,
I tore—I DOVE THEM ALL.

The clicking of the magic type,
The carnest talk of men,
The telling of the giant press,
The scratching of the pen,
The tapping of the yard stick.
The thinking of the scales.
The whisting of the scales.
The whisting of the cocking stove,
The surging of the broom.
The pattering feet of childhood,
The housewife's busy hum,
The buzzing of the scholars,
The teacher's kindly call—
These sounds of active industry,
There—I love THEM ALL.

I love the plowman's whistle,
The reaper's cheerful song.
The drover's off repeated shout
Spurring his stock along;
The bustle of the market man
As he hies him to the town;
The balloa from the tree-top
As the ripened fruit comes down;
The busy sound of threshers,
The clean the ripened grain;
The lusker's joke and catch of glee
'Neath the moonlight on the plain;
The kind voice of the drayman
The shepherd's gentle call—

Oh there's a good in labor, If we labor but aright, That gives vigor to the day time, And sweeter sleep a night; A good that bringeth pleasure, Even to the toiling hours; For daty cheers the spirit, As dew revives the flowers. Then say not that Jehovah Gave labor as a doom; No!—'tis the richest mercy From the cradle to the tomb Then let us still be doing, Wint 'ar we find to do.

The reports were discussed until late in the evening, when a vote was taken on the minority report, which was defeated by six majority. A large number of those who havored the minority report then withdrew from the Council, and the ticket was ndorsed by those remaining with but little op-

> We quote the following from the New Haven (Conn.) Register, that our readers may see how Northern Democrats stand on the great issues of the day, which are threatening the integrity of the Union:

WIDE-SPREAD REJOICING .- The national pa pers-not only Democratic papers, but national Whig papers, from all quarters—are coming i with congratulatory notices of the election of our two Democratic Congressmen. They view these victories as rebukes of sectionalism and disunionism, and also as a significant sign of that political redemption which will soon visit other New England States. Probably the election of no other two Congressmen has given more wide-spread joy, and a plainer omen of the "good time coming," than the election of Messrs. Arnold and Bishop. "A and B" are the first letters of the political alphabet, and the first letters of the political alphabet and the first letters of the political alphabet alpha soon the reform will reach "X, Y, Z." Union-loving men rejoice that the "Nebraska District" is redeemed; the Nebraska-Kansas doctrines—"popular sovereignty—let the people rule"—were and are sound, and the very basis of our free, equal rights-Democratic institutions. But the special joys come from the fact that some voters who were duped for a me, by the disunionists, have seen th and "corrected their procedure" by re-asserting their political integrity, and hastening back to the time honored Democratic fold. Mirrepre sentations are temporary-truth and Democrac are enduring. "Error writhes and dies; but truth crushed rises again."

A SAD FEATURE OF DESTITUTION IN NEW YORK.—An inquest was held in New York, on Monday, on the body of a woman 40 years of age, who was found in a dving condition the preious night, in an open yard on Seventh Avenue, and who expired at the station house. A little girl, eight years of age, and two younger children (boys) were lying beside her upon a pile of rags. At the inquest, the little girl Mary Ann by name, was examined. She told

a very sad tale most artlessly:
"That is my mother," she said, pointing to the corpse. "The night before last two men came into our house, and turned my father and mother, and me and two little brothers out. We had no where to go. We then went to sleep in the entry. Nobody turned us away all night. In the morning father went away to look for another place; he was gone all day. We had nothing to eat, and was very hungry. Father came back at 6 o'clock, and then went away Nobody would let us into their house cause they said if they did the landlord would turn them out. The folks we hired the house of hired it to somebody else. So we went into the yard. Mother said she was very sick; she had been sick a long time before, and my little brothers cried. Mother lay down, and I put ome rags on her to keep her warm, because she said her head ached so bad. When it got dark my two little brothers lay down, and I put some things over them, and I got some rags to put nder them, too, and then I sat up to watch By and by a policeman came along, and then he went away and got another one, and they lifted er up and put her into a cart, and took us all here. Mother didn't want to leave the yard. She said to the policeman that she wanted to

Their address closes by recommending to the American party of Pennsylvania to elect delegates to meet in convention in Harrisburg on the 3d of June, for the purpose of placporter of the Stuart cause. She compelled her lover to leave his peaceful profession of an en-graver—in which he was to achieve such disnguished rank-and to enter the rebel army After Culloden, Strange, like many other Scotch gentlemen, was "in hiding." AFTER several years experimenting in the manufac nring of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manulacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Schiedam, Holland. Afterses-

eral months' reflection what title to give it, I introduced it to the American public under the name of 'Wolle's Schiedam Aromatic Schnapps." Schiedam is the name of the place in Holland where the Gin is manufactured Aromatic derives its name from the Italian Juniper Berry, with which It is flavored, and the word "Schnapps" is the German for drink-Cogne, Dram-Wolfe's Schiedam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the liquor-mixer of New York, Boston, and Philadelphia started in par ult with their mixed and poisonous stuff, under var ous names-Schiedam Gin, Schiedam Schnapps, Lor with only the addition of a few letters, to plead a techas to impose on careless purchasers. I understand argo quantity has been purchased by the merchanise of the Eastern States, on account of the cheapness of tho articles. Wolfe's Schiedam Aromatic Schnapps Is made from Barley of the first quality, selected with reat care from the products of the most celebrated grain-growing districts; is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every

crid particle.

As a means of preventing and correcting the disa greeable and often dangerons effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South, and Southwest, are peculiarly liable—the Schledam Aromatic Schnapps will be found absolutely infallible; while, in cases of ropsy, gravel, obstructions of the kidneys, diseases of ne bladder, dyspepsia, and general debility, it is roommended most emphatically by the most distinguish members of the medical profession.

It is put up in quart and pint hottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac simile of his signature on the label. For sale by all respectable druggists and country No. 22 Beaver street, New York.

PANORAMA OF THE BIBLE.—We had the plea sure of visiting this fine work of art last night and find that we are obliged to confess to an agreeable disappointment. Our expectation were far surpassed. We have been so often disgusted by panoramas, that we have registered a vow not to darken the doors of any hall where one is being exhibited. The reputation which Mr. Williams possesses, however, led us to visit this one, with the expectation of having our taste for art gratified. We have seldom spenan evening more pleasantly. As a work of art, the Panorama must please every one whos taste inclines that way; and as an admirable history of the earth from the Creation until the Babylonish Captivity, it affords instruction for young and old. Some of the secues are per fect gems, and if instead of being on twenty feet of canvass they were adapted to the par lor, they would be priceless to the possesso Mr. Williams spent about five years in painting this Panorama, and has produced a work which will be a lasting monument to his talent and

Mary Short was arraigned before the Po liee Court yesterday upon a charge of stealing three dollars from John Schneider. The lar cenv is alleged to have been committed on Sat urday night last, in Marv's house, whithe Schneider had gone and ordered a dozen hard boiled eggs and a cup of coffee. During the preparation of the edibles, John avers the Mary encircled his neck with her arm, and while pretending affection purloined the money from his vest pocket. There was no proof o the larceny, and the woman was discharged Meanwhile Mary has entered suit agains Schneider for defamation, in that he charge her with the theft, assessing her damages a \$50. Of course the investigation will be had in a magistrate's court.

One of the finest specimens of that beau tiful water-fowl, the pelican, that we have ever ecen, was bagged by a sportsman, about two miles above the city, on the Ohio, on Tuesday The bird measured eight feet nine inches from tip to tip; its covering was as white as the mountain snows, and its first recentacle for food reminded us of a two bushel gunny-bag Our young mercautile friend, Orr, is the fortu nate possessor of this natural euriosity, and will have it earefully preserved, stuffed, and placed in his eabinet of curiosities. The enterprising hunter who captured the bird, stands in the re lation of benefactor toward the finny tribe, for his pelicanship would appear to have had great capacity for fish.

We learn that the female sex of the va rious tribes of fowls are unusually prolific hereabout, the present season. A chicken hearted gentleman, who is somewhat alarmed at the result, informs us that he has in hi poultry-yard a Coehin-China hen, which depos its, upon an average, five perfect eggs in three days. Another amateur informs us that an or dinary dung hill fowl, in his collection, presented him, vesterday, with an egg which meas ured seven and a half inches in circumfer ence lengthwise, and a fraction over six inche in eircumference around the larger part of the circle. We call this laying them "thick and fast."

IT H. C. Morrison, a native of Barrel county, but a recent inmate of the Bardstown jail where he had been confined on a charge of burglary) was up before the Police Cour vesterday, charged with stealing twenty dollar East Tennessee money from Wm. Newman and a smaller sum from a countryman by the name of Mitchell. His counsel endeavored to avert the charge of felony, by pleading that the grand larceny consisted in stealing broken bank money; but the prisoner was sent for ward to answer the charge.

INDIANA STATE SENTINEL REVIVED .- It will be remembered that the office of the Indianar olis Sentinel was entirely destroyed about fortnight ago, by the explosion of a steam boiler. The enterprising proprietors have al ready resumed its publication, and the paper came to us last evening even improved in its appearance. The loss and embarrassment to the proprietors has been very serious; but we are pleased to note a movement throughout the State with a view of reimbursing them somewhat. May they prosper abundantly hereafter

OPENING OF THE NATIONAL .- The public wil be pleased to learn that the National Hotel, at the corner of Fourth and Main streets, is to be re-opened, but more particularly pleased to learn that the new lessees are Messrs. Erwin & Ettley. The bar will be opened this morning, and the rooms as rapidly as they can be made ready. The National is very centrally located, remarkably adapted to the business of a hotel, and the new proprietors are eminently qualified to render it popular with the public.

STRANGE WHIM .- We learn that a citizen of Jeffersonville, who has for some time had jealous suspicions of his better half, foreibly denuded her yesterday and gave her a complete coating of varnish from head to foot. The unnatural application might prove a protection from the weather, but it would be difficult to imagine how the punishment could remove the "good man's" jeal usv.

THE FLOWER QUEEN .- On the night of the first of May, the young ladies, pupils of Mr. Whipple, will give a concert. We are assured by those who have heard the recitations of the young ladies, that the concert will be unusually fine. Let all go and hear for themselves.

VISITING CARDS .- Thanks to Mr. Irving Vescelius for the beautiful specimens of visiting cards. Mr. Vescelius is a card writer, and is now at the Louisville Hotel. Those who wish visiting cards written in the handsomest style. can be accommodated to their satisfaction.

- General Charles F. Henningsen, the Nica-

agua fillibuster, and wife, have been sued by Theodore S. Draper, for the New York Hotel in the Superior Court of New York, for bill for board and money loaned Mrs. Henningser amounting altogether to about \$500-and for which that lady gave a note of her own. Th daintiff obtained an order at special term d recting Mrs. H. to give an explanation of he istinct personal property. That order was grauted at special term, from which an appea as taken. This court now reverses that dec on, on the ground that the debt is the debt of he husband; that even for the wife's note li done is responsible; and that in the prosecution of the suit the wife could not be maile a witnes gainst the husband.

AFFRAY IN CYNTHIANA .- We learn from the exington Statesman that a cowardly attack as made upon F. L. A bitter controversy ha een earried on for some time between the par es through the columns of their respective pa ers, which resulted in the affray. Morey a acked Mr. McChesney with a heavy stick, at me when Mr. McChesney did not anticipate n assault, Morey coming up behind his antag mist. This can be regarded in no other ligh than outrageous and cowardly, as, physically speaking, Morey would have every natural ad vantage over Mr. McC., who is a delicate, invould-be assassin represent him as quite the verse. We also learn that Morey was armed therwise for the affray, while his antagonis was altogether unprepared. We are assured from a private source that Morey was arrested and fined \$5 for the assault.

FAMINE IN WESTERN IOWA .- A correspond ent of the St. Louis Republican, writing from St. Joseph, Missouri, under date of April 13th says that, while on a recent visit to Wester Iowa, he met long trains of wagons going, a the driver said, "into Egypt to purchase corn." The Gazette, of yesterday, says: PRENTICE REPENTANT .- Many persons have arveled that Prentice, so renowned as a part an editor, should at this late day turn lectures It may not be so marvelous after all, if we ex amine the matter a little. Read his article or lood Friday-reflect upon the character of hi ctures-they are no-party lectures-thus vir nally abandoning party polities altogether. But the most reasonable hypothesis that we have yet eard advocated is, that, as Prentice caused a ash in 1856, by bets, he is now giving twenty we cent lectures, in order to enable him to omply with one of the requisites of the Cath lie Church, which it requires all postulants t omply with before their admission to member

A Scientific Question.—A par going the rounds of the papers, heade long shall we sleep?" The question we tumble out of bed an hour before guarantied by such an operation, in a quaint old nursery rhyme, have a chill every day and a "bad cold" the year round shall we indulge in that greatest of all luxu ries, a morning nap, with the bright suulight peeping in behind the curtain? We are inclined to think that

"Early to bed, and early to risc, Makes a man healthy, wealthy and wise," was a fiction of those unhappy people who cannot sleep after daylight, and who would eon vince the world that their infirmity is a virtue. To hear some folks talk, you would think that all the virtues of life were tumbled into one. and that one consisted of tumbling out of bed y eandle-light. We confess, that in our humopinion this early rising, to watch "day breaking," as though day was really going to break something, is one of the veriest humbuge of the age ! "How long shall we sleep ?" Eransville Journal.

IMPORTANT FROM THE SOUTH .- The New Orleans Picayune, of the 14th, says in its money article, dated on the 13th:

The talk in the street to-day turned on the very unexpected change that took place in the weather yesterday morning. On Saturday we had an agreeablo temperature with the thermometer at 75 deg., but a sudden nerther reuced the mereury on Sunday to 42 deg., and his morning the glass was down to 40 deg. he immediate vicinity there was a heavy white ost, which nipped vegetation, and there is no loubt whatever that every blade of cotton has en killed outright. Snow fell in large quanties some fifty miles above the city, a thing hat has not happened at this period of the seaon since the 15th of April, 1849, when all the tanding cotton was destroyed in one night, and he crop of that year fell short at least half a Iudians. General Thayer, of Omaha City, has uillion of bales of the early expectations.

ACCIDENT TO THE W. M. MORRISON .- The New Orleans Picayune, of the evening of the 14th, says:

The steamboat W. M. Morrison, Capt. Bo inger, which left the levee yesterday afternoon or St. Louis, with a large freight, the United states mail, and a crowd of passeugers, met with a had accident soon after starting up the When she had reached Twelve-mile Point, her starboard engine was broken, both ylinder heads being blown out, the pitman and rank broken to pieces, and the machin rally sustaining severe damage. The Morrion returned to the city last evening.

THE CROPS.—We learn that the recent cold pap has very seriously injured the young toaceo plants in this region, though to what exent has not been ascertained. The fruit crop as also been greatly injured. It is believed that the peaches are entirely cut off, and the early apples killed. We have not heard of ny injury to the wheat.
